

Roadmap ECC

Groupe Restoleil (2024 → 2028)

Year / Steps	% Target	Concrete Actions	Monitoring indicators	Report Communication
2024/2025 Starting point	13 % compliant	Pilot sites converted (outdoor access, winter garden) Initial supplier audit	% compliant volumes	Publication of the first figures
Winter 2026 Consolidation phase	≈ 20 % compliant	Conversion of the most accessible sites Supplier support	Supply traceability	ECC public report Public communication
Winter 2027 Acceleration	≈ 50 – 60 % compliant	Conversion of complex sites Implementation of a corrective plan if needed	Progress against the plan	Publication of detailed progress
Winter 2028 Completion of the transition	100 % compliant ECC	Completion of the ECC transition Validation of full compliance	100% ECC-certified volumes	Public review of the transition Commitment to maintaining progress beyond 2028
Beyond 2028	Maintaining	Ongoing monitoring of European standards and societal expectations Dialogue with suppliers to secure compliance	Consolidated annual publication	Annual ECC report integrated into the group's CSR approach

We guarantee the transition of our purchasing practices to meet our commitment to ensure that 20% of our supplies come from animals with outdoor access or a winter garden (Label Rouge).

The projected percentages refer to the volumes of chicken meat sold.

The commitments in our roadmap largely depend on our suppliers' ability to carry out their own transition, but the Restoleil Group will continue to prioritize supplies that allow us to meet these commitments.
